Location.

The Samaná Peninsula is located in the northeastern part of the Dominican Republic, between the Samaná Bay and the Scottish Bay. It extends from west to east for 35 miles (58 km). The minimum width is 4.5 miles (7.5 km) from Sánchez to the north and the maximum of 11.5 miles (18.5 km) from Los Cacaos in the south to Las Tres Puntas in the north.

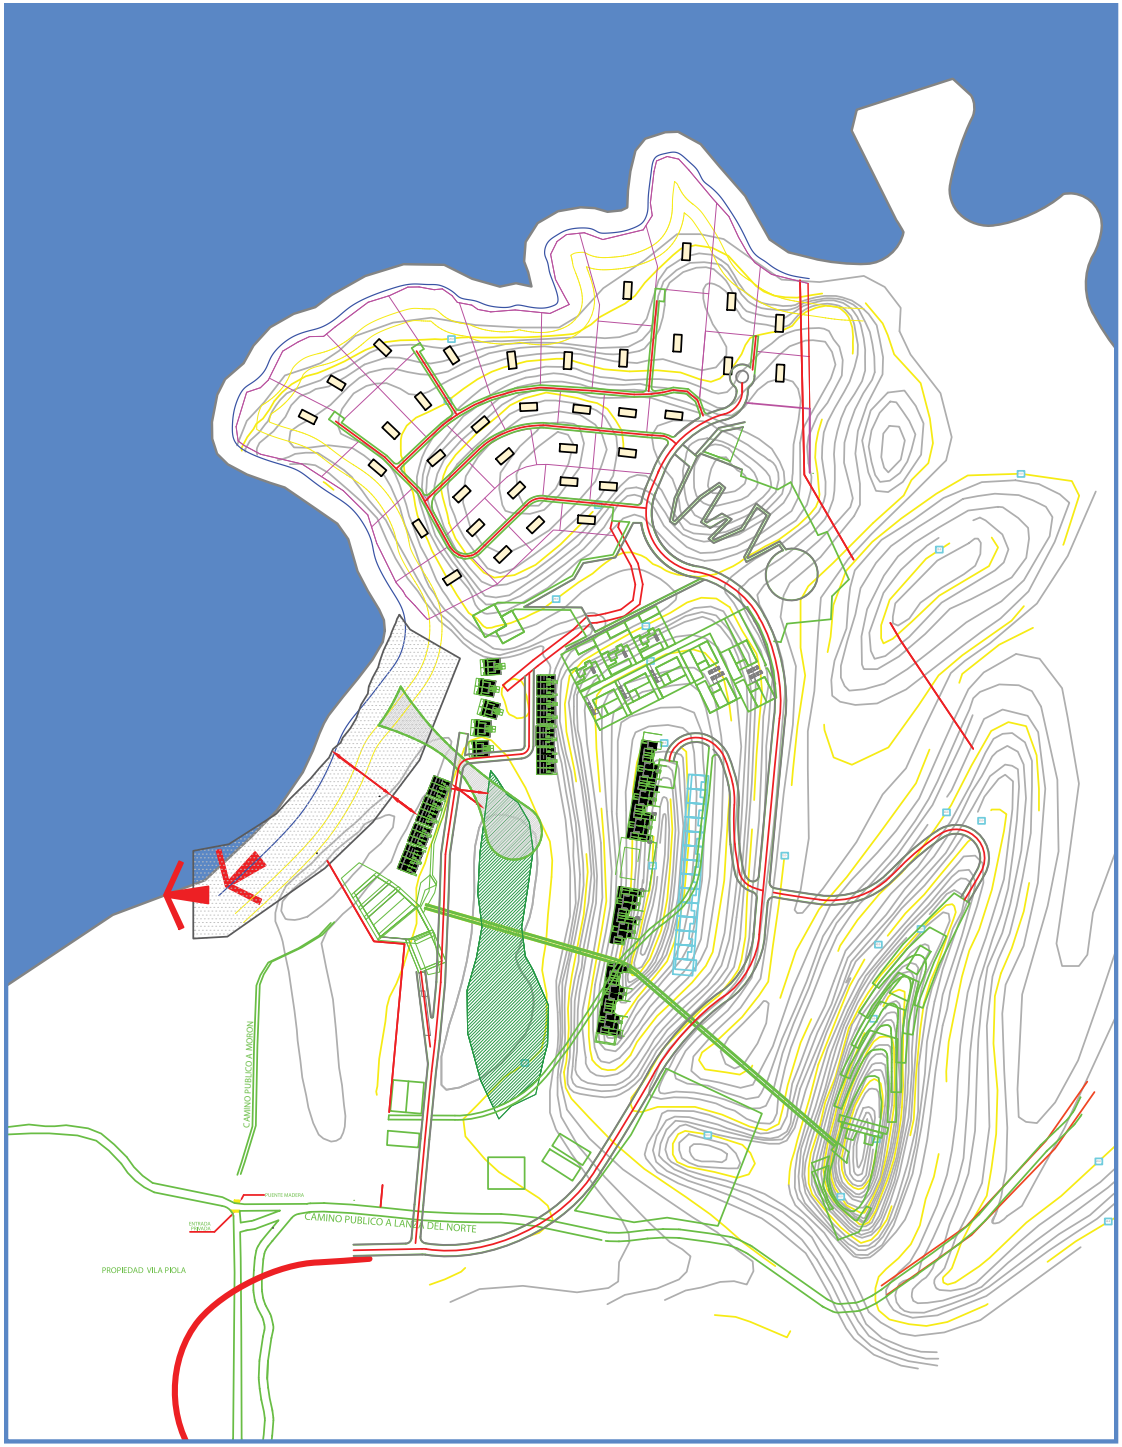

The Dominican.

Beyond the sun-kissed beaches and laid-back vacation lifestyle, the Dominican Republican offers a rich and vibrant history connecting Europe with the New World.

In 1492, Christopher Columbus guided his flagship, the Santa Maria, to the North Coast of La Isla Española, a paradise that would come to be known as the Dominican Republic.

Alpine mountains and white-water river rapids. Lush rainforests teeming with wild orchids and bougainvillea. Miles of pristine beaches studded with coconut palms. And the warm, welcoming smiles of the multi-cultural people who call this beautiful country home. It's no wonder visitors return to the Domincan Republic year after year after year.

Site Plan.

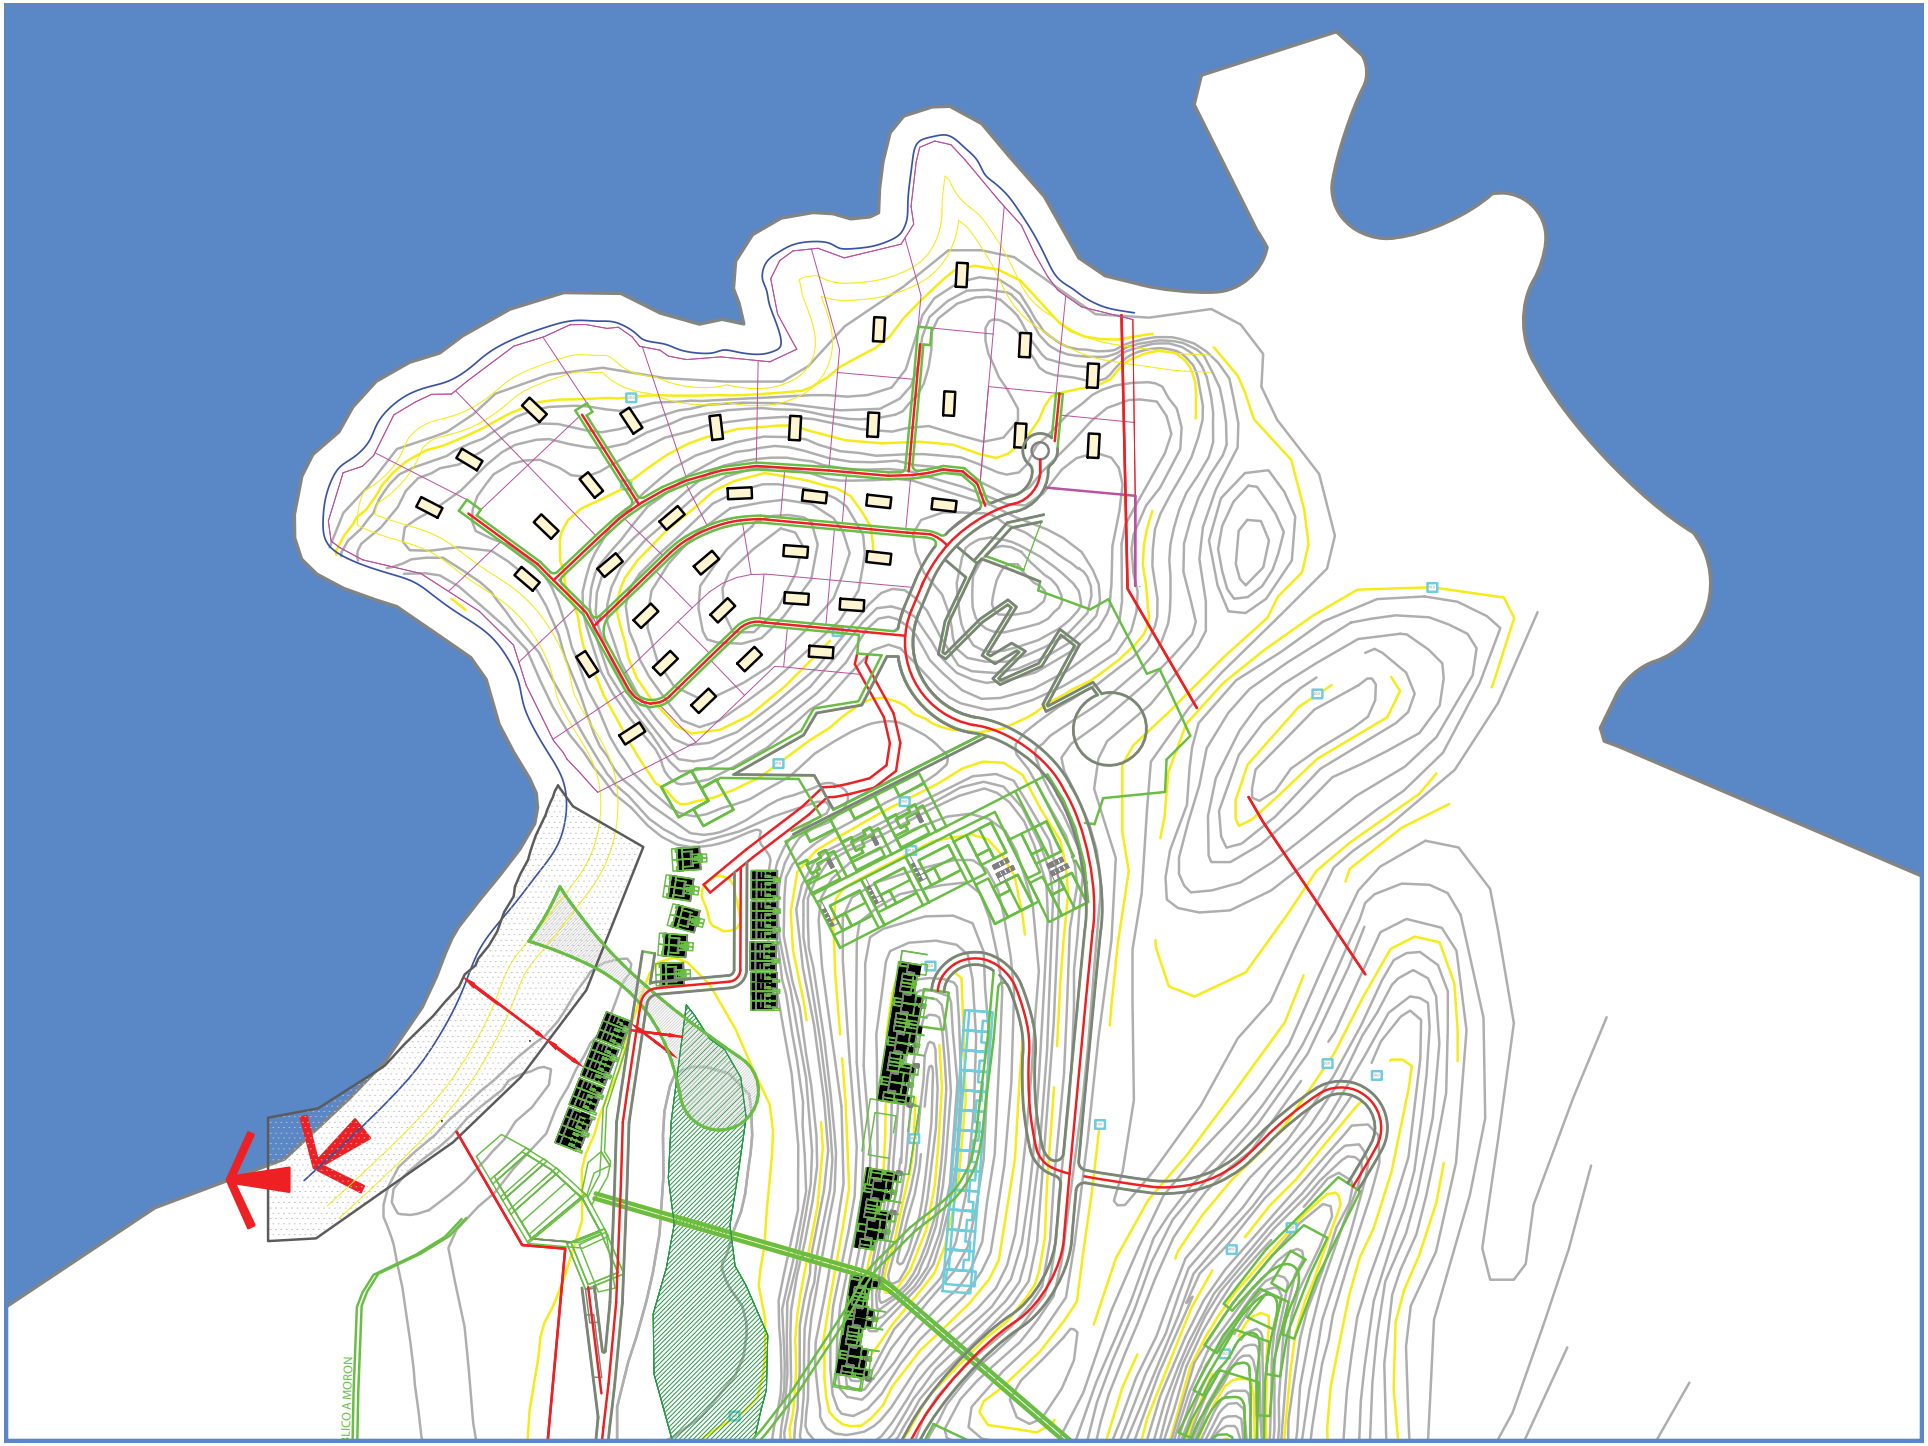

White capped ocean waves lapping at the pristine beach to greet you each day with a speculator sunrise bursting with color. What could be better than this?

With only 19 ocean front lots being exclusively offered by Lifestyle Holidays Vacation Club, in this their newest jewel in the Dominican Republic on the shores of Samana, this opportunity won't last long.
